RESEARCH INTERESTS

Health Insurance, Disability, and Health Equity: Applying statistical and quantitative methods to study healthcare access, utilization, and financial burden among people with disabilities and other underserved populations, with particular interest in the role of health insurance and policy.

EDUCATION

Temple University Philadelphia, PA
Master of Science in Actuarial Science, GPA: N/A Expected Dec 2027

Purdue University West Lafayette, IN
Bachelor of Science in Applied Statistics, GPA: 3.59/4.0 Dec 2024
Applications in Data Science Certification
Relevant Coursework: Assistive Technology, Introduction to Time Series, Data Science Labs on Probability, Applied Regression Analysis, Statistical Programming, Statistical Theory

Foothill College Los Altos Hills, CA
Associate of Science in Mathematics, GPA: 3.7/4.0 Dec 2022

RESEARCH EXPERIENCE

Undergraduate Researcher, Purdue University West Lafayette, IN
CoLiberation Lab Aug 2024 – Present

- Developed a Chrome-based accessibility extension leveraging large language models to simplify complex web content and support assistive reading experiences for neurodiverse users.
- Implemented asynchronous API workflows and latency-aware UI behavior to ensure a stable user experience and enable future controlled user studies.
- Built instrumentation-ready pipelines (structured logging and configurable outputs) to support upcoming empirical evaluation of comprehension and usability outcomes.

Undergraduate Data Science Researcher, Purdue University West Lafayette, IN
The Data Mine Department Aug 2023 – May 2024

- Built reproducible Python/SQL pipelines to clean, join, and analyze large-scale sensor and field datasets for downstream statistical modeling.
- Fit multivariate regression and ANOVA models to quantify factors associated with seed viability, identifying 3 key statistically supported predictors for R&D strategy.
- Presented findings to corporate partners by translating statistical results into clear, decision-relevant recommendations.

INDUSTRY EXPERIENCE

Quality Engineer, Qcells Georgia Inc. Cartersville, GA

Manufacturing Technology Quality Management Department

Mar 2025 – Jul 2026

- Built automated analytics pipelines (Python, Spotfire) to transform high-volume operational data into repeatable reporting artifacts, providing daily power output metrics to executive leadership.
- Developed regression and classification models on multivariate process data; performed feature attribution and validation to identify critical drivers of N-type cell efficiency and optimize manufacturing yields.
- Collaborated cross-functionally with global teams to integrate multi-source datasets and communicate statistically grounded findings for planning and operational decisions.

Data Analytics Intern, Laon People Inc.

Gyeonggi, South Korea

R&D Department

May 2023 – Jul 2023

- Conducted exploratory data analysis (EDA) on a dataset of 100,000+ training images for the NAVI AI vision solution software.
- Implemented Python scripts to visualize class imbalances and aspect ratio distributions, guiding the data augmentation strategy for improved model robustness.
- Collaborated with the deep learning team to define outlier detection thresholds, directly enhancing the F1-score of the production defect classification model.

HONORS & AWARDS

Best Data Visualization Award, ASA DataFest

2024

Dean's List, Foothill College & Purdue University

2021 – 2024

Inductee, Alpha Alpha Alpha (National Honor Society for First-Gen Students)

2024

TECHNICAL SKILLS

- **Quantitative Methods:** Experimental design, A/B testing, survey design, statistical modeling, multivariate analysis, time series forecasting, Bayesian inference, accessibility standards (WCAG)
- **ML/Stats:** Pandas, NumPy, Scikit-learn, PyTorch, Statsmodels, Tidyverse
- **Programming:** Python, R, SAS, SQL, JavaScript, HTML/CSS
- **Tools:** Git/Github, Jupyter, LaTeX, Spotfire, Tableau

SERVICE & OUTREACH

Participant, Women in Big Data Mentoring Program, Women in Big Data

Aug 2024 – Nov 2024

Student Affiliate, Tech Justice Lab, Purdue University

Jul 2024 – Present

Quality Assurance Analyst Volunteer, American Red Cross - NHQ

Jun 2024 – Nov 2025

Outreach Manager, Women in STEM Club, Foothill College

Jul 2022 – Dec 2022

PROFESSIONAL AFFILIATIONS

Association for Computing Machinery (ACM) - Member

2025 - Present

American Statistical Association (ASA) - Member

2023 – Present
