EDUCATION

Temple University, Fox School of Business

Master of Science in Actuarial Science

Philadelphia, PA

(Expected) Dec 2027

Honors & Activities: Dean's Merit Scholarship (2026-2027) | Member, Gamma Iota Sigma (GIS) - Sigma Chapter

Relevant Coursework: Short-Term Actuarial Modeling, Managing Property and Liability Risk, Actuarial Analytics

Purdue University, College of Science

Bachelor of Science in Applied Statistics & Certificate in Applications in Data Science | GPA: 3.59/4.0

West Lafayette, IN

Dec 2024

Honors: Best Data Visualization Award (ASA DataFest), Dean's List, Tri Alpha

PROFESSIONAL EXPERIENCE

Qcells Georgia Inc.

Quality Engineer

Cartersville, GA

Mar 2025 - Jul 2026

- Automated daily Final Quality Control reporting by engineering a data pipeline with Python and Spotfire, eliminating 5+ hours of manual data processing per week and delivering real-time metrics to executive leadership
- Quantified potential financial liability and supported risk mitigation strategies by analyzing historical customer claims data, including warranty periods, refund amounts, and defect types
- Developed a machine learning model to evaluate manufacturing parameters impacting solar cell efficiency, establishing the algorithmic foundation for the company's future Quality Portal System

Laon People Inc.

Data Analytics Intern, R&D Department

Gyeonggi, South Korea

May 2023 - Jul 2023

- Analyzed 100,000+ training images using Python, building automated Exploratory Data Analysis (EDA) pipelines to identify distributional patterns and resolve class imbalance
- Established rigorous outlier detection thresholds in collaboration with quantitative researchers, ensuring high data integrity for predictive model training

RESEARCH EXPERIENCE

CoLiberation Lab (HCI & Accessibility)

Purdue University Undergraduate Researcher

West Lafayette, IN (Hybrid)

Aug 2024 - Dec 2024

- Designed a Chrome extension leveraging Large Language Models (LLMs) to simplify complex web syntax, building the technical foundation for future neurodiversity and reading comprehension research
- Implemented asynchronous API handling to manage latency between the browser client and the LLM inference server, ensuring system stability and scalable architecture

The Data Mine (Corporate Partners Program)

Purdue University Undergraduate Data Science Researcher

West Lafayette, IN

Aug 2023 - May 2024

- Architected a data pipeline using Python and SQL to clean and merge terabyte-scale environmental sensor datasets for Beck's Hybrids Inc
- Developed multivariate regression and ANOVA models to evaluate seed viability, isolating critical variables including defoliation and moisture levels
- Presented technical findings at an academic symposium, translating statistical outputs into actionable recommendations for optimal planting and harvesting strategies

SKILLS

Programming & Statistical Software: R, Python (Pandas, NumPy, Scikit-learn, PyTorch), SQL (SQL Server, MySQL), SAS, Java

Analytics: Regression Analysis, Hypothesis Testing, Time Series Analysis, Predictive Modeling

Tools: Excel (PivotTables, Power Query), Power BI, Spotfire, Tableau

CERTIFICATIONS & ACTUARIAL EXAMS

SOA Exam P

Sitting Sep 2026

SAS Certified Specialist: Base Programming Using SAS 9.4

Aug 2026
